

## 'CAL' BROUGHER DIES SUDDENLY IN COAST CITY

Death is Mourned by People of Southern Nevada Who Knew His True Worth

The whole of southern Nevada is bowed in grief today over the announcement received this morning that Henry Calvin (Cal) Brougher, pioneer mining man of the west, and one of the very first residents of Tonopah, had expired at 1 o'clock this morning following an operation that was performed ten days ago. Death came peacefully at St. Luke's hospital in San Francisco, the patient having remained in a comatose condition for several days.

"Cal" Brougher, as he was known to every acquaintance, was a genial, well-to-do gentleman. He possessed those sterling qualities of manhood that has always been one of the requirements of a true westerner. He was of the salt of the earth and his word was as good as his bond and the people of the west sincerely mourn his departure from this earthly sphere.

Mr. Brougher was an empire builder and had been a resident of Nevada since 1871. He was born October 14, 1851 in Adams county, Pa., and was 71 years of age. When a young man he left the east with Eugene Lark, later a farmer and stockman of Blue Eagle. The two first located at Eureka, and later Mr. Brougher moved to Tybo, where he engaged in the wood and coal contracting business. From there he went to the State Line mine in the northern part of this state. Later he went to Arizona where he remained a short time and then proceeded to the Fort Alene country, where he remained until 1890. At that time he came to Tonopah, later returning to Idaho to close up some business affairs, but early in 1891 he returned to Tonopah and the whole of southern Nevada. His first mining ventures here were in association with his brother, Wilson Brougher, who died a few months ago. The two engaged in developing their own properties and in leasing on others.

Mr. Brougher built one of the fine business buildings in Tonopah, which was known as the Mizpah hotel, and where now stands the Mizpah hotel, of which he is the principal owner, as well as the building occupied by the Tonopah Banking corporation and the postoffice. He was a director in the Tonopah Banking corporation and one of the heaviest stockholders.

Mr. Brougher was one of the original owners and organizers of the Tonopah Gold Hill Mining company, now known as the Jim Butler Mining company. He was also one of the original owners and organizers of the Tonopah Belmont company, as well as the Tonopah Midway and Monarch Pittsburg company. Later he organized the Tonopah Divide company, and is still one of the heaviest stockholders. He was also a director of the Bank of Idaho.

That Mr. Brougher had a premonition that he would never recover from the operation that he submitted to ten days ago is evidenced from the fact that before entering the hospital he arranged all his business affairs. He even went so far as to provide that the stock held by him in the Tonopah Divide Mining company should remain intact and not be disposed of in any manner. He had the greatest faith in this well known mining property and it was his desire that his interests be protected for the benefit of his heirs.

"Cal Brougher" possessed a lovable character. He was generous and charitable to a degree. He was a loving husband, a good friend, a man among men, and held the respect and esteem of his friends and acquaintances. He is survived by a widow and a daughter, Elsie Belle Brougher, two sisters, Mrs. Jane Sperry of Los Angeles, and Mrs. Agnes Campbell, of Seattle, and several nephews.

Mr. Brougher was a member of the Belmont Lodge Independent Order of Odd Fellows, the Tonopah Aerie of Eagles and the Athenian Nile club of Oakland.

He was married to Miss Elsie Gay.

## BARCELONA HAS GREAT PALACE IN BUILDING

Will Be Sufficiently Advanced This Fall for Inauguration of Majesty

BARCELONA, Nov. 7.—The new palace under construction here for the king is expected to be sufficiently advanced this fall to permit of its official inauguration by his majesty in the presence of the queen and the other members of the royal family, and the representatives of all foreign nations, accredited to the Spanish court.

With the exception of the palace in Madrid, which is regarded as one of the largest and finest in Europe, the royal residence presented by Barcelona to the reigning family will be the most sumptuous in Spain. It contains four floors.

Enormous interest is being taken in the building of the palace by every class of folk in Catalonia. Noble Catalan artists have undertaken to decorate the various apartments, furnishing to provide the necessary furniture, tapestries, and the like. The royal family will give the money. These voluntary gifts are estimated to be worth over a million francs.

The future royal seat is being built entirely of materials produced in Catalonia itself, the idea being to make it a permanent exposition of the manufactures and products of the region.

When their majesties come for the formal inauguration, they will stay here for a few days, but the work cannot be completed in all its detail until the coming spring.

Advantage is to be taken of the presence of the foreign representatives to make official announcement of the Universal Electrical exposition of 1925.

## OAKLAND HAS SIGNED LEFT HANDED PITCHER

OAKLAND, Nov. 7.—Charles W. Hockett, a husky young left handed pitcher from Seattle has been signed for a trial next spring by the Oakland baseball club. Tim O'Rourke, old time major league recommended Hockett to the Oaks. O'Rourke says he has plenty of speed and a good curve ball.

## HONOR IS PAID H. H. ATKINSON UPON RETURN

Republican Rally Largely Attended and Great Enthusiasm is Manifest

The citizenship of Tonopah paid a well deserved compliment last night to one of their townsmen, Hon. H. H. Atkinson, nominee for attorney general on the republican ticket, when hundreds assembled in the Butler theater following the first show. All the county candidates on the ticket were on the platform with Mr. Atkinson and all were called upon to make a few remarks.

Mr. Atkinson was the principal speaker of the evening and he told his audience of the great victory that seemed to be assured for the republican party in the election that is being conducted today. He pleaded with his hearers to support every candidate on the ticket, including senator, congressman and state and county nominees.

Among those occupying seats were Fred M. North, nominee for clerk and treasurer; Lida Gilbert, nominee for auditor and recorder; J. P. Kenison, nominee for sheriff and assessor; Charles A. DeFon, candidate for district attorney; J. E. Peck, candidate for county commissioner for the short term; W. H. Royton, Chas. D. Keough and Teresa I. Henderson, candidates for the assembly, and Sanford Galvin, nominee for constable of Tonopah township.

In of Carson City in August, 1904.

The funeral will be held from the family home at Oakland on Thursday, November 9, interment taking place in Mountain View cemetery.

E. J. Erickson and W. E. Walters, long-time friends of deceased, will leave tomorrow morning for Oakland to be present at the obsequies.

## HAWAIIAN VOLCANO IS AT WORK AGAIN

HILO, T. H., Nov. 7.—The great volcano of Kilauea which has been dormant temporarily following a national explosive eruption in March, 1921, has resumed activity, according to T. A. Jaggar, government volcanologist, whose observatory is at the brink of the volcano's base.

Starting with the formation of a glowing cone 600 feet down within the walls of the crater, a stream of molten lava has been pouring steadily into the depth below, while a more recent flow has occurred in the form of an uprush of gaseous lava, which violently agitated the lake formed by the upper cascade.

Within ten days the lava rose from 200 feet within the inner bowl of the crater and is rising at the rate of about five feet a day. Dr. Jaggar anticipates that the liquid lava will increase greatly as the December solstice approaches, while from other indications there appears to be a strong possibility of an outburst of Mauna Loa, a 14,000 foot high cone located northeast of Kilauea. Mauna Loa is active at the present time, and is the most active of the three volcanoes in the world, also at the present time, and is the most active of the three volcanoes in the world, also at the present time.

## THANKSGIVING TURKEY PRICES TO BE FIRM

OAKLAND, Calif., Nov. 7.—Prices of Thanksgiving turkeys, the largest and finest raised in the state, are expected to be firm and profitable. At present the birds are quoted at 45 to 50 cents a pound, while the live birds are quoted at 40 to 45 cents a pound.

## PROSPECTS ARE BRIGHT FOR A BIG VICTORY

Indications are That There is to Be No Change in Affairs At Washington

NEW YORK, Nov. 7.—(Continued from page 1.)—Early reports from various parts of the United States indicated the probability of a heavy vote in the congressional elections. Strong indications are that the republican party will carry the majority in many districts, and that the republican party will carry the majority in many districts, and that the republican party will carry the majority in many districts.

One of the most important factors in the election is the vote of the farmers. The republican party is expected to carry the majority in many districts, and that the republican party will carry the majority in many districts, and that the republican party will carry the majority in many districts.

## OXFORD CONSIDERS NEW COURSE STUDY

LONDON, Nov. 7.—Jolly old chapel of four-score years and ten, freeling on the Oxford playing field, and doddering septagenarians following in enclined panto on the upper reaches of the Thames may become realities if the plan for the entry of the old as well as the young to the famous English university is carried out.

The suggestion is that a college be established for adults, as Ruskin college was established for the education of men from trades unions. Such a college, it is pointed out, would be a haven of refuge for extra mural activities of the university, and would enable many adults to carry on studies which they started and which they have been unable to complete.

## FIFTY BODIES RECOVERED IN MINE DISASTER

Eleven More in Sight and 32 are Removed to Miners Hospital at Spangler

SPANGLER, Pa., Nov. 7.—The bodies of 50 miners who lost their lives in the Rolly mine explosion here yesterday, lay in the city morgue today, 13 more were in sight in the mine, rescue workers said, and 32 injured were in the Miners' hospital.

## PRESERVATION SEA MAMMALS NOW DESIRED

Treaties Wanted to Preserve Life of Whale and Other Large Animals

SAN FRANCISCO, Nov. 7.—Four years ago a line of whale ships was reported sailing westward of that time when whaling was a common sight in the Pacific. The whaling industry has since then been a thing of the past, and the whale is now a rare sight in the Pacific.
